3 students need attention

at-risk filter

Marcus K. (M)
hasn't asked a question in 6 days · stuck on recursion — flag

Priya S. (P)
asking same question 3 different ways · confused — watch

Devon L. (D)
8 quiz retries · low confidence — watch

Why these three? Plain-English signal, no model magic. Click any name to see their session pattern + suggested intervention.

Hi Sandra. No setup, no charts to read. Just ask in plain English. I'll pull the numbers and explain what they mean.
try one of these to start:
Who hasn't logged in this week?
What's the most confusing topic right now?
Show me students who might be struggling.
Is the assistant ever giving direct answers?
ask anything about your cohort...
